DUDLEY DO-RIGHT Dudley battles with Salsely Whiplash high in the new-capped Rockwell!

FRACTURED FAIRY TALE About the duckling who was an outcast because he was so ugly.

STRICTLY FOR THE BIRDS . . . Bullwinkle looks for rare birds . . . and nearly winds up a dead duck!

THE TIME THIS
REACHES DO-RIGHT,

WE WERE
GETTING TO
THE GOOD
PART!

BASH!

WELL, SHERMAN, I
HOPE YOU GATHERED
THE MORAL OF THAT
LITTLE EPISODE!

I SURE DID,
MR. PEARBODY!

...IT'S "ALWAYS LOOK A
GIFT HORSE IN THE
MOUTH!"

NOT QUITE!

...ACTUALLY IT'S "BEWARE OF
GIFTS BEARING GREEKS!"

Ridiculous isn't it?

Tourists will be happy to know that the first round trips to the moon will cost a mere \$15,000,000. But within a few years the price is expected to drop to the bargain rate of \$2,000,000.

Talk about beauty queens! Out in Chicago one lucky miss was chosen as "Queen of National Frankfurter and Sauerkraut Week." The only thing they left out was the mustard.

The Agriculture Department reports that whirling a fruit fly at 240 revolutions per minute will reduce its egg production by 60 per cent! But for real results, stick to the old-fashioned fly swatter!

In California there's a firm that exports Pizza pies. To Italy of all places!

A famous Chicago restaurant is planning a special dining room for dieters who want to cheat without being seen.

In case anybody cares, a fellow down in New Zealand claims a new world's record for dancing the twist, non-stop—55 hours and fifty minutes!

Anything for a buck department: Out in California there's a fellow who earns his living by picking up stuff thrown or blown from cars traveling the high-speed desert

highways. Choice items include deposit boxes, hub-caps, shirts, hats, blankets and even wrist watches.

Here's something to remember the next time they serve you a glass of milk. Cow juice is also used to manufacture paints, glue, textiles, dyes and even as a non-chipping surface for ice-skating rinks.

An astronaut who zoomed through space at thousands of miles per hour was stopped in Florida for speeding! His car was doing 45 miles per hour in a 40 mile per hour zone.

There's a sign in a Philadelphia restaurant which reads: "HELP STAMP OUT HOME-COOKING!"

In England, Nottingham jail is reported to be building a 9-hole golf course for its guests.

A car thief arrested in Chicago told the police that he kept a list of the hundreds of cars he'd stolen, to prevent stealing the same car twice. It's thoughtfulness and consideration like this that makes the world pleasant for the rest of us.

A special flash for the social set! You can hire a beatnik as entertainment for your party! Bearded poets and bongo players make dandy conversation pieces at swank affairs.

When two African soccer teams met for a match, the affair ended in a squabble! It seems that one team brought along a witch doctor to put the whammy on the opposition.

Honest, fellows! It really happened! Back in 1896 two men actually rowed across the Atlantic for a \$10,000 prize! They paddled 3250 miles in 55 days to reach England. And then followed it up with a 250-mile pleasure jaunt to France.

Bothered by the King-sized phone bills piled up by his guests, a millionaire has installed pay telephones in his mansion.
